Hyperdimensional Etheric Healing

And Magnetic Field Disruption (“MFD”)

We are regenerative beings. All 70 trillion of our cells are constantly regenerating. It is the Etheric body, which coordinates cellular regeneration and thereby maintains health. Our goal is to clear and recharge the Etheric body to achieve optimum efficiency and therefore health and well-being, which is our God(ess) given gift.

We are also protected by an Auric field. It is this field that maintains our sovereignty and keeps us protected from ingress from energies outside of our bodies. Often, this Auric field can become fissured (cracked) due to stress, inebriation, accidents, physical shocks, brutality, grief or other natural causes. When this happens we become vulnerable to the ingress of energies from outside.

These outside energies can take the form of individual souls who have left their bodies and have not progressed into the light. They are disembodied souls or entities, also called ghosts (in the west) bhoots (in India) and Ula Le’le (by the Hawaiians). Every great culture has had a name for the phenomenon, but few have developed reliable strategies to adequately deal with it. The entities are earth bound because they have not developed an interest in the progress of their souls and are highly attached to their material interests and the pursuit of their desire nature (i.e. sex, drugs, alcohol, money, power, greed etc.)

When one’s Auric field becomes cracked, a person can be vulnerable to attracting and hosting (unwanted) entities. The presence of the disembodied souls causes interference to the Etheric body, which causes ill health. When cells grow uncontrollably, that is cancer. They also can manifest in the consciousness as “voices” that attempt to influence the individual into behaving in a manner that will satiate their desires (the entities). All of this is counter to the positive development of the individual and the further evolution of one’s spiritual being.

Magnetic Field Disruption is a technology that uses powerful Neodymium magnets to create an interacting magnetic energy field by whose compression a sensation is caused, that the entities simply do not like. When an infected individual sits in the triangulated field the entities (in time) leave. They must leave. They do leave.

Once gone, Raj Agni will locate the fissure in the Auric protection field and seal it. He will teach you a technique to protect yourself from further incursion by the entities. He will then clear and recharge your Etheric body. You will be healed.
